DETAILED ACTION

In the Amendment Accompanying Request For Continued Examination (RCE) dated January 18, 2005, the specification is amended, claims **10-11 and 19-21** are canceled, claims **5, 8, 13, 16 and 22-25** are amended, and new claim 26 is added is acknowledged. Accordingly, claims **5-9, 12-18 and 22-26** are currently pending in this application.

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

This application is in condition for allowance except for the presence of claims **1-4** non-elected without traverse. Accordingly, claims **1-4** have been canceled.

Allowable Subject Matter

Claims **5-9, 12-18 and 22-26** are allowed.

The following is an examiner's statement of reason for allowance:

Claims **5-9 and 12** are allowable over the prior art of record because the prior art of record does not teach or render obvious a block alterable memory cell comprises, in combination with all other features, a buried implant region essentially contiguous with the source implant

region, and a tunnel window region overlaying the buried implant region as recited in independent claim 5.

Claims 13-18 are allowable over the prior art of record because the prior art of record does not teach or render obvious a block alterable memory cell comprises, in combination with all other features, a buried doped region essentially contiguous with the source doped region, and a tunnel window region overlaying the buried doped region as recited in independent claim 13.

Claims 22 and 23 are allowable over the prior art of record because the prior art of record does not teach or render obvious an abutting pair of block alterable memory cells, each memory cell comprises, in combination with all other features, a buried implant region essentially contiguous with the source implant region, and a tunnel window region overlaying the buried implant region as recited in independent claim 22.

Claims 24 and 25 are allowable over the prior art of record because the prior art of record does not teach or render obvious an abutting pair of block alterable memory cells, each memory cell comprises, in combination with all other features, a buried doped region essentially contiguous with the source doped region, and a tunnel window region overlaying the buried doped region as recited in independent claim 24.

Claim 26 is allowable over the prior art of record because the prior art of record does not teach or render obvious a block alterable pair of electrically erasable mirrored cells of a memory array of the type comprises, in combination with all other features, a buried implant in a central region of the active area, a mirrored pair of source implants proximate to buried implant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
